Description

The Hundskofel climbing garden is located above the St.Jakob sawmill in the Defereggental valley and is a granite rock with a height of 25 metres. More than 29 routes are available to climbers. The highlight is a short via ferrata with a suspension bridge (maximum difficulty C).

Equipment: Helmet, climbing harness with via ferrata set, via ferrata gloves and suitable footwear.

Difficulty: from 4: The terrain is slightly inclined with sufficient holds.

to 8: This level of difficulty requires sophisticated climbing technique and a significant amount of climbing-specific strength – overhanging terrain with small holds.

Climbing courses: The team of the Defereggental holiday region will be happy to provide you with further information.
