## Description

In the so-called "Kleineggele" on the southern outskirts of Sillian, not far from the ice arena, a new winter wonderland has been built. A 75 metre long Wonder Carpet is available as a central ascent aid. A ski carousel, a practice and toboggan run as well as a snow tubing run invite you to play and have fun in the snow from this winter. Little snow princesses and piste tots can playfully learn their first skiing skills here under expert guidance. The popular snow happening with snow tubing, snow rafting and snow disco takes place every Wednesday evening in Winterwichtelland.
