

Adrenaline via ferrata route

The route requires significant levels of endurance and arm strength and is hard right to the last metre and is therefore only suitable for experienced, strong via ferrata route walkers.

Altitude profile

The most important at a glance

difficulty D/E	length 580 m	duration 45 min	exposition W	sea level starting point 710 m
sea level entry point 790 m	sea level highest point 975 m	access time to the entry point 10 min		
walking time descent 20 min	state: open			

best season: MAY, JUN, JUL, AUG, SEP, OCT

Description

The route alternates between varied wall climbing and exposed ridge climbing. The view down into the depths, accompanied by the constant sound of rushing water, presents a particular challenge. The via ferrata is accessible only during the opening hours of the Galitzenklamm Water Adventure Park.

Equipment: Complete via ferrata gear and helmet. A complete via ferrata set can be rented at the ticket office for a small rental fee.

The via ferrata is only accessible during the opening hours of the water adventure park.
