## **Beschreibung Bike**

From the starting point of the challenging MTB route at the Kals municipal office, head in a westerly direction along the asphalt road to the intersection at the school center. Here you turn right in the direction of the castle and follow the medium-steep road to the Dorfertal parking lot. From here, the asphalt road begins, branching off to the right, in the direction of the Moaalm. 50 m before the Moaalm bridge, turn right again onto the forest road and now climb in numerous hairpin bends up to approx. 2,200m. The times are for E-Bikers.

## **Beschreibung Wanderung**

The narrow trail leads steadily uphill to the Stüdlhütte at 2,802m. The short ascent to the Fanatkogel (2,905m) is well worth it.
