Venediger Altitude Trail Stage 2

Description

Continue along the "Schwerinerweg" for a short distance into the Maurertal, and then quickly gain altitude in serpentines up to the Türmljoch (2,772 m). The descent leads, well marked with stone markers, and in the lower section of the path increasingly steep, to the oldest hut in the Eastern Alps, the Johannishütte (built in 1857, expanded in 1999).
