Winter hiking trail Bichlrunde

Description

Starting from the municipal office in the heart of Prägraten a. G., this leisurely winter trail first leads towards the Bichl lift. Right at the start, a small food truck tempts you with delicious snacks and hot drinks – perfect for a little refreshment on the go. The trail then runs north of the L24, turns into the snow-covered fields and continues to the idyllic district of Bichl.

Here you will find Adi's Treff, known for its warm hospitality and fine delicacies – an ideal place to stop and warm up. The way back leads along the Bichlweg east of the ski area and offers more wonderful views of the winter valley.
