Description

From the car park, it takes about 5 minutes to reach the starting point: Dorfberg T-bar lift. The ski tour starts directly on the piste until you reach the top station of the T-bar lift. It is only a few metres up to the Ochsenwiese along the great high-altitude trail. A little more fitness is required from the Breitwiesen up across the wide alpine pastures and a sparse wooded area before the Dorfberg and summit cross appear on a large hilltop.

Descent: same as ascent
