Ski tour Golzentipp via Bannwaldweg 2.317m

Ski tour from the car park at the Almfamilyhotel Scherer, initially on the piste to the mountain station. Cross a lift track above the mountain station and turn left at a signpost over a small bridge into the forest. Continue in the same direction along the ridge to the edge of the forest and always towards the summit, finally without difficulty across the wide plateau to the summit structure and then in a few hairpin bends to the Golzentipp (2317 m).
