Beschreibung

The Hundskofel climbing crag features granite rock faces at a height of 25 metres. More than 29 routes are available to climb on. A via ferrata route with a suspension bridge is a highlight here.

The climbing crag is located above the sawmill in St. Jakob in Defereggental. Free car parking is available right at the sawmill for visitors. From here it is a 20 minute walk up to the climbing crag.

Difficulty level: from 4. The terrain has a slight incline and has plenty of stopping points. Difficulty level – up to 8. For this difficulty level polished climbing technique and a decent amount of climbing-specific strength – overhanging terrain with small stopping points.
