## Description

A classic ski tour taking you up the mountain and after conquering the summit, back to the valley again. Yet the Hoch Tirol ski route is not a classic ski tour. On the **Hoch Tirol ski route** you stay the night in accommodation which is right on the mountain and in bothies located at above 2000 metres, there is even one at 2801 metres (Südlhütte on stage 5). The challenging ski route starts in **Kasern in South Tyrol** and proceeds across the summits of the **Venediger mountains** to the highest mountain in Austria, the **Großglockner (3798m)**. An overwhelming sensation is guaranteed here when you arrive at the final stage, **Kals am Großglockner!** The feat you have just achieved, the proximity to the forces of nature around the glacier and the many summits conquered will be etched in your memory.
