Description

The Hinteraue circular hiking trail starts at the Kreuzbühel car park and leads along a field path to "Hinteraue". This extensive area is ideal for taking a winter hike with your family due to its flat, large fields. The distinctive rows of trees (popularly known as "wind belts") in this area protect the surrounding fields from the "Tauernwind". The glittering rays of the sun are reflected in the frozen Tauernbach stream and the quiet splashing makes you feel calm.
