Description

The flora and fauna on the Alpine Flower Trail "**Alpenblumenweg**" can also be studied on the “Short Circular Path”. From **Trogach** (car park) you can take the forest road and the hiking trail back to the actual starting point “**Gasser Kofel**”. Depending on the season, you will discover numerous flowering plants in the alpine lawns up to the **Seespitzhütte** on the moderate ascent. From the **Seespitzhütte**, the “Short Circular Path” runs as a high route to the east and then branches off downhill through the avalanche barrier at the top towards the starting point.
