Circular walk suspension bridge Kals am Großglockner

Description

The starting point is the district of Glor. There, the sign for the suspension bridge points to the right and you cross the Ködnitzbach stream via a normal wooden bridge. A forest path leads upstream until you reach the suspension bridge in about 20 minutes. This bridge is 30 metres above the Ködnitzbach gorge. The suspension bridge is 50 metres long and has a grid that you can see through. The route continues along a narrow, winding path (path no. 37c) until you reach the Alten Lucknerhausweg no. 702B, a forest path. Follow this path downhill for the return journey until you reach Glor again.
